

# FORK CANCER HONOREE

## ***What is an Honoree?***

Honorees are a group of a distinguished group of Palm Beach leaders who have been nominated by their peers to be one of the 20 faces of the second annual Fork Cancer Palm Beach. Honorees serve as an extension of the American Cancer Society to advocate for its mission to impact every cancer and every life. They know their way around town, are well-connected, and philanthropic. They want to influence their community and make an impact in the fight to #SaveLives and #ForkCancer by raising a minimum of \$2,500.
